PROFILE

AS

Alex Smirnoff

honesty · growth · experiments

✨ I see myself as someone driven by growth: hard work, broader perspective, professional evolution and process optimization.

📚 I enjoy learning unfamiliar things. Give me a C# tool I have never seen – I will figure it out and explain how it works.

❤️ I value honest collaboration, constructive criticism and results worth showing.

🔥 I would rather take on a creative challenge than do something “quick and cringe”. Bonus: I code, work with AI tools, train LoRA graphics models and automate workflows.

EXPERIENCE

KP

KPMG Ukraine

Motion Designer 01.2026 – present Remote · full-time

Developed a motion identity system for the brand presence in Ukraine. Produced promo videos, intros, event screens and campaign assets.

Supported product UX/UI with micro-animation concepts and interaction details. Prepared web assets and key visuals for social media, newsletters and presentations.

SA

SA Consulting

Designer 01.2025 – present Part-time

Built the studio's visual style from scratch: discovery, moodboards, design directions, templates and workflow integration.

Designed key visuals for presentations, documents, sticker packs and paid social campaigns. Delivered legal-design materials based on client brand books and communication guidelines.

Developed UX/UI/Product design for websites of affiliated companies.

MS

Metinvest-SMC

Content Creator · Designer 08.2021 – 01.2026 Remote · full-time

Expanded and refined the company's design system across social media, internal channels, corporate emails, presentations and dashboards.

Prepared print materials, infographics, competition creatives, video edits and other design assets. Managed the internal company website: design, responsive layout and content support.

Independently built two JS tools to automate business processes: business-card generation and weekly birthday greeting cards for employees.

EU

EuroTolerCulture · Erasmus+

Designer 2023 – 2024 Part-time

Roll-up banners and key visuals; design review across contractors: UX/UI and print.
